

**University of California, Irvine**  
**Minor in Civic and Community Engagement**  
**University Studies 110: Philanthropy in the Community**  
**Spring 2020 Remote Course due to COVID-19**

**Meeting time:** This is an asynchronous class (recorded) with optional opportunities for synchronous ('Live') discussion. I will be hosting office hours during our class meeting time and I am open to hosting a zoom meeting to allow you to do break out groups to talk amongst yourselves. I am doing a pre-term survey to understand where students are located in terms of timezone and other constraints.

**Location/Medium:** Via Canvas (you will watch the video recorded via zoom or Yuja here); office hours and live sessions will be done using zoom. I will be using the module function in Canvas so you will open the module by week.

**Instructor Information:**

Victoria Lowerson Bredow, MPH, Ph.D.  
she/her/hers  
Director of Engaged Scholarship and  
Lecturer in Community and Civic  
Engagement  
Community-based Research Initiative,  
Newkirk Center for Science & Society,  
UC Irvine  
Land of the Ajachemen and Tongva  
nations  
vlowerso (at) uci (dot) edu

*Please post general questions about the course (content questions, due date clarifications, etc.) via the general Q&A forum on our UCI Canvas course site so that all students can benefit from the answer. To reach me regarding questions that are personal in nature, please use the email listed above*

**Note on the syllabus:**

In general, but particularly given the global pandemic of COVID-19 - please consider this a living syllabus. We will discuss this syllabus in week 1 and I will be learning about where you are at and how we may need to adjust this syllabus. We will also revisit course expectations in light of the changing context weekly to make changes and adapt the course in a way that is supportive for everyone involved and implicated by this course.

Here are some **basic principles** that draw from Bayne's 2020 adjusted syllabus([Links to an external site.](#))

1. Nobody signed up for this. Not for the sickness, not for the social distancing, not for the sudden end of our collective lives together on campus Not for an online class, not for teaching remotely, not for learning from home, not for mastering new technologies, not for varied access to learning materials

2. The humane option is the best option. We are going to prioritize supporting each other as humans. We are going to prioritize simple solutions that make sense for the most. We are going to prioritize sharing resources and communicating clearly
3. We cannot just do the same thing online. Some assignments are no longer possible. Some expectations are no longer reasonable. Some objectives are no longer valuable
4. We will foster intellectual nourishment, social connection, and personal accommodation. Accessible asynchronous content for diverse access, time zones, and contexts. Optional synchronous discussion to learn together and combat isolation
5. We will remain flexible and adjust to the situation. Nobody knows where this is going and what we'll need to adapt. Everybody needs support and understanding in this unprecedented moment

### **Given those principles of an adjusted syllabus**

#### **What will students do and learn in this course?**

In this course students will learn about the theory of philanthropy and the state of the field as well as actually act as professional philanthropist working at a foundation we create, currently called: UCI4OC; you will research and potentially meet local community based organization; and you will give mini-grants to local Orange County organizations (estimated \$5K). Drawing on the “Competencies for Justice Funders” developed by Justice Funders (see [here \(Links to an external site.\)](#)) during this course students will develop the following competencies:

Analytical – Leadership – Strategic – Technical – Adaptive – Relational

#### **What are the goals of this course?**

- Students will engage as reflective and critical practitioners of philanthropy;
- Students will experience the relationship between civic and community engagement and philanthropy;
- Students will understand the history and present state of philanthropy, and the current academic, practitioner, and popular conversations on the topic, and where the three intersect and conflict;
- Students will experiment with a vision for, see themselves in, and imagine the future of philanthropy.
- Students will do all this in relation to COVID-19 and the own experience and in solidarity with most vulnerable communities in Orange County.

#### **What are the reading expectations for this course?**

*Students are expected to read the assigned reading, reflect on the reading in terms of the work they are embarking on in the course, COVID-19, and their past experience and knowledge related to philanthropy (e.g. nonprofits, service, poverty, inequalities etc)*

- [Reich, Rob. Just giving: Why philanthropy is failing democracy and how it can do better. Princeton University Press, 2018. \(Links to an external site.\)](#)
  - [Available free online \(Links to an external site.\)](#) via UCI Library when logged in with UCI netID - use web VPN.
- Optional due to COVID-19: Villanueva, Edgar. "Decolonizing Wealth." The Grantmaking School (2018).
- Other readings as hyperlinked in the Syllabus.

### **Diversity, Inclusion, Equity, and Integrity Statement**

I am committed to supporting inclusion, diversity, and equity in the classroom. This is the first time I have moved this course online and am doing this only weeks before the quarter begins so I am looking to you to call out respectfully and constructively when things can be improved. I will do the same. Please feel free to reach out to me to provide any suggestions. To support inclusion, diversity, and equity I also am adamant about academic integrity and engaging in the classroom. There are many resources for this. If you are struggling, please reach out to the professor.

Here is the [guidance \(Links to an external site.\)](#) on Equity, Diversity and Inclusion in the time of COVID-19.

### **Netiquette**

"In an online course, the majority of our communication takes place in the course forums. However, when we have a need for communication that is private, whether personal, interpersonal, or professional, we will use individual email or telephone. Our primary means of communication is written. The written language has many advantages: more opportunity for reasoned thought, more ability to go in-depth, and more time to think through an issue before posting a comment. However, written communication also has certain disadvantages, such a lack of the face-to-face signaling that occurs through body language, intonation, pausing, facial expressions, and gestures. As a result, please be aware of the possibility of miscommunication and compose your comments in a positive, supportive, and constructive manner." from Dr. Dana Ericson's Developing an Award-Winning Online Course. UC Irvine, Winter 2016.

### **What are the other course expectations and how will your grade be determined?**

\*PLEASE SAVE YOUR ASSIGNMENTS IN WORD AND WITH THE FOLLOWING NAMING PROTOCOL

US110\_20\_YOURLASTNAME\_NAME OF ASSIGNMENT\_DATE (MM.DD.YY)

**1. Reading Reflections** - The purpose of these are for you to document and summarize what you read, what you think about in terms of philanthropy, and then how we might apply what was read to helping us in our class work. I highly recommend you read the prompts before you read the chapters. The lectures will also provide some guidance. Given second book is optional this section was reduced in points from

original syllabus. Please leave the questions and respond to each prompt in complete sentences which can be bulleted. 1/2 page minimum - 2 page maximum. **20%**

Reflections 1 - 6: Reich readings assigned week 1 - 6 - possible total of 18 points (3 points each)

Reflection 7: Week 2: OC Community Indicators Report - 2 points

Reflection 8: Week 2: Equity Profile of Orange County - 2 points

\*allows students to miss one of the reading reflections.

## **2. Assignments related to Philanthropic Experience: 30%**

1. Issue memo - 5 points (Due Week 4). In this 1 page memo you will collectively work with your group members to describe the state of the particular issue you are focused on providing statistics as to who is impacted and why we should ultimately be concerned particularly in terms of the state of the issue in Orange County. The memo should include a subsection relating to COVID-19. (Individual Assignment - You are encouraged to share resources and collaborate in your issue pod)
2. Nonprofit Memo - 5 points (Due Week 5). In this 1 page memo, you can collaborate with your pod to write. You will describe 2 local Orange County Nonprofits: who they are, what they do, ... using the nonprofit research tools from Week 4. You should select at least one nonprofit from the list of previous partners on the UCI4OC home page on the collaboration tool. This is an Individual Assignment - You are encouraged to share resources and collaborate in your issue pod.
3. Draft Visual/Theory of Change/Logic Model - 5 points (Due Week 6). Students will use the Kellogg reading, class discussion, and the template provided by Professor to tailor UCI4OC's theory of change for their groups as if they were running their own pod within UCI4OC philanthropic organization focused on the collective issue of the groups focus (determined in week 3). (Individual Assignment - You are encouraged to share resources and collaborate in your issue pod)
4. Decision Making Criteria/Process - 5 points (Due Week 8). Students will decide on the decision making process for deciding how to fund the organization. We will discuss other types of grant giving scenarios. (Each student is expected to approve the process similar to approving the mission statement)
5. Reflection Memo on Site Visit Recordings with Nonprofit - 5 points (Due Week 9). This is a one page summary of your reflections on the video interviews with the nonprofits focused on your issue (total of 2 videos to watch) which will be posted week 6 and week 8 (estimated based on scheduling with nonprofits). (Individual Assignment - You are encouraged to share resources and collaborate in your issue pod)
6. Finalize Organizational Funding Agreement - 5 points (Due week 10). By this point, each pod will work with the professor to collectively write and finalize the funding agreement with the respective nonprofits. This will involve members of pods adding information in from the calls with the nonprofits into the RFP.

7. **OPTIONAL/EXTRA CREDIT: PPT/Recorded Pitch - 5 points extra credit (Due Finals Week).** To be discussed in Week 9 & 10. Each year two students from the class volunteer to be student ambassadors at the philanthropy lab conference. Students participate in a fully funded trip to Texas where other students from the 17 other participating classes across the country compete for more money for their respective nonprofits. This pitch is for you to practice your pitch for more money (\$25,000) for your nonprofit. Last year's students won! In your pitch, you will need to describe the problem (your issue memo), you will then describe the organization (your nonprofit memo and site visit reflection) and describe the impact they are having on the issue (your logic model). This can be between 3 - 5 minutes and be recorded, written script, or PPT with script in slides. Because of COVID-19 this assignment has been made extra credit so that only those that are interested in attending the Ambassador's conference will submit this for feedback from the professor in preparation for the conference.

**3. Participation and Attendance -** Everyone is expected to contribute what they can as a member of the class. This will be assessed in the following ways - **30%**

1. Attendance - Viewing the Class Recordings. 2 allowed misses. **10 points**
2. Contributing to class discussion/discussion board. There are no wrong answers. These are meant to emulate class discussion. So you may have more to say about one question, and other questions you may be building off of the answers of your peers. Each week's Discussion Board is work a total of 1 point. **10 points**
3. Watching at least 2 guest speaker videos and posting questions or comments before or after guest speakers - **5 points** (Guest speakers options include: (1) Christine Fontana (2) Panel from Philanthropy Lab Ambassadors conference (3) Ellen Chen, ENO brands and class supporter (4) Kathleen and Mark Santora, UCI Trustees (5) Bethany Harper, Philanthropy Lab)
4. One 1-1- meeting with Professor - **5 points.** Each student is required to do one office hour meeting with professor in person between Week 2 - Week 6. (15 minute slot). I will open up slots after I understand availability from pre-course survey.

**4. Philanthropy Lab Requirements. 20%**

1. Read and sign grant letter - 10 points (due Week 2)
2. Complete Philanthropy Lab Pre-term Survey (due Week 3) - 3 points
3. Write and Post Giving Goal - 10 points

\*Flexibility and accommodations will be made for students who are sick and caring for sick family members as well as other extenuating circumstances due to this public health crisis. In this situation, communication with your group and professor is critical.
